

COVID-19

SCHOOL TESTING

You have been identified as either having close contact with someone who has tested positive for COVID-19 or as someone who is experiencing COVID-like symptoms (fever (>100.4°F), cough, shortness of breath, difficulty breathing, chills, sore throat, headache, muscle/body aches, runny nose or congestion, vomiting, diarrhea, and/or a new loss of taste or smell).

Maricopa County and Banner Health Urgent Care have teamed up to offer you COVID-19 testing **at no cost to you.**

TESTING APPOINTMENTS MUST BE MADE AHEAD OF TIME

- ▶ Banner Urgent Care sites - register online at urgentcare.BannerHealth.com
- ▶ Arizona State Fairgrounds (also provides drive-through flu shots) - register online at doctors.BannerHealth.com/provider/Covid-19+testing
- ▶ Or schedule an appointment by calling **844-549-1851**

Please bring this flyer with you to your appointment.

Insurance information will be requested; however, you will not be asked for any out-of-pocket payments including co-pays.

WHEN SHOULD I GET TESTED?

Testing is recommended any time after day 7 through day 14 of quarantine period. You can develop symptoms up to 14 days after close contact with an infectious person. You can get tested anytime during those 14 days but most people develop symptoms within a week.

WHY SHOULD I GET TESTED?

If you or someone in your family is at higher risk for severe complications due to COVID-19, you may want to know if you are carrying the virus. While waiting for the 14-day quarantine period to expire, it is a good idea to stay away from anyone in the family who may be at higher risk and to wear a mask while in public.

CAN I GO BACK TO SCHOOL WITH A NEGATIVE TEST?

No. Because you can develop symptoms for up to 14 days after close contact with an infectious person, you must remain out of school for 14 days, even if your test is negative.
